

Dear FCCI am a Republican and exhort my representatives in Washington to rethink

this action at this time.

I am registering AGAINST the proposed change to Broadcast copyright laws. The laws proposed are shortsighted and restrictive. The changing technology will quickly outstrip any common sense application of such a restrictive legislation. Please do not try to solve this issue using legislation. A free market requires the Broadcast industry to find new methods and markets for its products without resorting to restrictive actions through FCC rules. Businesses must find a way to handle technology changes without restricting the rights of the individuals to use products under 'fair use'. The possible violations of this process can and should be handled through current legal means without adding additional restrictions to the freedoms a United States Citizen should continue to enjoy.

Respectfully submitted,

Ray Bailey  
IT Manager,  
Bergquist Company  
Cannon Falls, MN
